

REMARKS

Claims 1-9 are pending.

Paragraph [0039] of the specification has been amended to correct a spelling error.

Claims 1-9 were rejected under 35 U.S.C. §102(e) as being anticipated by Lee (US Patent Pub. App. No. 2001/0046868). The applicant respectfully traverses this rejection for the following reason(s).

First, Lee has a filing date of 15 March 2001 whereas the present application has a priority date of 18 August 2000. Accordingly, Lee is not available as prior art under 35 U.S.C. §102 not §103.

Accordingly, the rejection should be withdrawn.

Second, the present invention requires that a call manager distinguish public mobile communication service from private mobile communication service by analyzing data received through a communication path, and performing call management for the corresponding service, wherein the data being analyzed consists of *information previously set by time slot*.

These features are found in claims 3, 5 (as amended), and 6-8.

The Examiner has referred us to Lee's paragraphs [0026] and [0032] through [0036] with respect to the above features. An analysis of the cited paragraphs finds no mention of a time slot

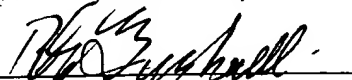

being analyzed to distinguish public mobile communication service from private mobile communication service.

Accordingly, the rejection should be withdrawn.

The examiner is respectfully requested to reconsider the application, withdraw the objections and/or rejections and pass the application to issue in view of the above amendments and/or remarks.

Should a Petition for extension of time be required with the filing of this Amendment, the Commissioner is kindly requested to treat this paragraph as such a request and is authorized to charge Deposit Account No. 02-4943 of Applicant's undersigned attorney in the amount of the incurred fee if, **and only if**, a petition for extension of time be required **and** a check of the requisite amount is not enclosed.

Respectfully submitted,

Robert E. Bushnell
Attorney for Applicant
